Flu Prevention Starts with Vaccination

With flu season just around the corner, getting your annual flu shot is one of the best ways to help protect yourself and your community this school year. According to the [Centers for Disease Control](#), the flu shot is recommended for everyone 6 months and older. The vaccine can reduce your risk of getting sick and may lessen the severity of illness if you do get the flu.

Highmark members can receive a flu shot at no cost when using an in-network provider or pharmacy. We encourage you to talk with your healthcare provider about getting vaccinated to stay healthy and protected this school year.

Health Observances

Ovarian Cancer Awareness Month

Ovarian Cancer Awareness month is observed each September and is a time to share important information about the disease and encourage women to be proactive about their health. Ovarian cancer is the deadliest gynecologic cancer according to the [National Ovarian Cancer Coalition](#), making awareness and early detection especially critical.

While there is no single test that can definitely diagnose ovarian cancer, the **American Cancer Society** recommends knowing the signs and symptoms and speaking with your healthcare provider if you notice any unusual or persistent changes in your health.

National Recovery Month

September is National Recovery Month, an observance launched by **SAMHSA** to raise awareness about substance use, treatment, and recovery.

If you or a loved one are seeking support, your Highmark medical benefits include coverage for recovery-related services, including treatment programs and behavioral health resources.

For help finding an in-network mental health or substance abuse provider, log in to your Highmark member portal at **myhighmark.com** or call the Highmark Premier Member Service Team at **844-946-6218**.
